SUMMARY

Finance and Management B.S. candidate (Syracuse University, degree expected 2026) working full time in client-facing accounting and payroll operations. Manages recurring deadlines for 18 clients, answers payroll and benefits questions, and keeps accurate records. Looking to build long-term customer relationships in logistics.

EXPERIENCE

Accounting & Payroll Associate Marketstaff (HR services firm) June 2026 – Present

- Process payroll for 18 clients across monthly, semimonthly and bi-weekly cycles.
- Answer employee payroll and benefits questions; handle full-cycle onboarding and offboarding and track eligibility dates for insurance and retirement plans.
- Manage accounts payable and receivable and issue invoices for services rendered; complete monthly bank and insurance-benefit reconciliations.
- Produce ad hoc reports on payroll, insurance benefits, company demographics and other requests.
- Monitor company cash flow against monthly spend and support forecasting.
- Validate HRIS data and maintain the organizational chart and compensation-range catalog for roughly 150 employees as roles and reporting lines change.
- Run the annual compensation process, including merit increases and bonus administration, and support the performance-review cycle and open enrollment.

Accounting and Payroll Intern Marketstaff Summer 2025

- Supported payroll, accounts payable and receivable, and HR data work that became the full-time role above.

SELECTED PROJECTS

- **monday.com Operating Plan and Rolling Reforecast.** Built a two-scenario operating plan with explicit triggers and locked it with timestamped, hash-verified releases before the Q3 2026 earnings date; scoring against actual results follows. 349 workbook checks pass.
- **FP&A Intelligence Engine.** An AI drafts a finance brief from a benchmark and code decides whether it is accepted. Tested the checker itself with a 55-case validation lab, published what it misses; 739 automated test cases pass.
- **Nike North America Recovery.** Driver-based three-statement model with bull, base and bear cases; in the base case, North America's growth covers Greater China's modeled decline by FY2028E with a $439M cushion.
- **Caterpillar demand-quality analysis.** Used 10-Q disclosures to separate real demand from dealer restocking: the Construction Industries dealer-inventory build fell from $1.5B in Q1 2026 to $400M in Q2 2026.
- **Microsoft–Activision and Arm.** Accretion/dilution model (about $3.64B of annual pre-tax synergies needed to be EPS-neutral) and a DCF valuing Arm at $51.54 a share against a $272.21 market price on Aug 10, 2026, each built from public filings.

LEADERSHIP AND ACTIVITIES

- **Syracuse University Running Club,** Secretary and Assistant Treasurer (Fall 2025 – Spring 2026). Helped organize and track funds for meets, travel, uniforms and entry fees; supported day-to-day club administration.
- **Franklin Supply Chain Club,** Syracuse University, Member (2023 – 2025).
- **Syracuse University Investment Club,** Member (2023 – 2025). Attended weekly investment and market-analysis meetings; took part in the stock-pitch competition.

EDUCATION

Syracuse University, Syracuse, NY – B.S., Finance and Management 2022 – 2026
Relevant coursework: Introduction to Supply Chain; Business Analytics for Management Decisions; Managing in a Global Setting; Financial Accounting; Managerial Accounting; Principles of Marketing.

SKILLS

Customer service and communication: client and employee payroll and benefits questions, relationship building, follow-through. **Operations:** time management across recurring payroll deadlines, attention to detail in reconciliations, accurate record keeping, accounts payable and receivable, HRIS data validation. **Analysis and tools:** Excel, Python, forecasting, scenario analysis, SEC filings.
